

Storage Racks

Storage Racks for effective storage of small goods. Easily fitted without nuts and bolts. Just hook on.

Storage Rack accessories include: an extendable shelf, extending drawers, interior partitions, trays and doors.

Based on the same system you can build workplaces and volume good racks with the standard shelf stand for individual needs.

Premium quality drawer units (up to 200kg per drawer)

Stable tool drawer units for effective and careful storage manufactured in a heavy-duty metal design. Easy running extendable drawers with basic opening (80-90%) or full opening (100%).

Internal equipped with slotted strips all round with spacing of 17 mm, which means it is easy to arrange fittings individually. Drawers can be fitted with several details to adapt as required.

SERVING INDUSTRY WITH INOVATIVE BESPOKE SOLUTIONS FOR YOUR WORKSPACE INCLUDING; WORKSTATIONS, BENCHES, ROLLERTACK, CONVEYORS, STORAGE SYSTEMS, LIGHTING, INSPECTION AND FUME EXTRACTION.

All you need – from one partner

Gigant 3D – making the right choices just got easier

Gigant 3D is a system that enables us to design, visualise and quote complete workplaces, from one quality supplier. Seeing the complete workplace before you buy makes it a lot easier to make sure you get everything just right.

Motorised Workstations

Available in 150kg to 500kg options with smooth electronically synchronised mechanism for multiple leg solutions. We offer a wide range of rear frames and accessories to accommodate the diverse needs of different industries. Motorised solutions are now surprisingly affordable but manual versions are available.

Special Solutions from PD&S Ltd.

Fully bespoke solutions can be designed in most materials for your specific needs or using our drill-less aluminium extrusions. We also offer a fabrication service in plastics for jigs and fixtures.

The possibilities are endless!
